

NATURAL RED TEA ANTIOXIDANT SERUM

Oxidization creates free radicals which can damage or destroy skin cells. Left unhindered it can result in an aged appearance. To delay and inhibit oxidization, anti-oxidants are an excellent line of defense. When absorbed by the skin, anti-oxidants help inhibit the oxidization of cells, ward off free radicals and improve the overall complexion of your skin.

Savarnas Mantra Natural Red Tea Serum is a skin vitalizing revolution that provides the many benefits of the Rooibos (red bush) plant in an age defying formula, specifically designed to deliver anti-oxidants and nourishment to the skin.

The Red Tea extract ingredient boasts an abundance of anti-oxidants, including the key anti-oxidant; Super Oxide Dismutase, which delivered in soothing Hyaluronic acid, provides an exceptional dose of free radical fighting power.

directions

Apply 2-3 drops in the palm of the hand and apply to face and neck.

daily application

Morning & Evening.

how it works

The Red Tea Extract ingredient is derived from the Rooibos (Red Bush) plant. This plant is exclusively grown in a small mountainous region of South Africa. Traditionally the plant is consumed as a tea; however its topical benefits in cosmetic applications are extensive.

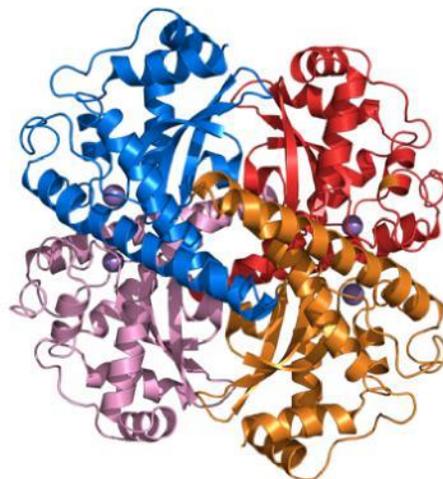

Scientific studies have revealed Red Tea to contain many anti-oxidants including the enzyme: Super Oxide Dismutase. This very helpful antioxidant drastically inhibits the oxidization of skin cells, which in turn, prevents free radicals from overwhelming the cells. By reducing the production of free radicals, the cells longevity is increased, slowing the onset of aging and improving the aesthetic results.

Red tea is well known for its anti-inflammatory and mineral rich qualities. It also contains the flavonol Quercetin. Quercetin is known to increase capillary strength, which contributes towards a tighter more youthful complexion.

Savarnas Mantra Natural Red Tea Antioxidant Serum wouldn't be complete without the incredible addition of Hyaluronic Acid. As a naturally occurring substance in the body and providing its own astounding benefits, Hyaluronic Acid is an excellent hydrator. With its strong affinity to moisture and compatibility with the skin, you couldn't ask for a more agreeable component.

Red Tea Extract is derived from the anti-oxidant rich Rooibos (red bush) plant

Red Tea extract contains the super antioxidant Super Oxide Dismutase, excellent for combating free radicals

Formulated with Hyaluronic Acid, Red Tea Extract offers a powerful anti-oxidant in one of the most effective moisturizers.
