

Natural Honey Exfoliant

The outer layer of your skin dictates the quality of your appearance. Left untreated, dead cells can accumulate on the surface, resulting in a rough and aged Appearance. Exfoliation of this layer helps reduce dead cell buildup and control factors such as texture, light and color, which influence the aesthetics of the skin.

Savarnas Mantra Natural Honey Exfoliant is a gentle exfoliating scrub that uses Amber granules to deliver a mild exfoliation.

With the blissful additions of Honey and Vanilla ingredients, this aromatic treasure is a pleasure to the senses that leaves your skin feeling soft and smooth, totally rejuvenated.

Perfect for Spa's and other sensual treatments, it also helps provide important Glycosaminoglycans to moisturize, and Magnesium Glucomate to restore essential minerals.

benefits

- Removes dead cells and impurities
- Provides a mild exfoliation of the surface
- Moisturizes the skin
- Delivers helpful minerals to the skin
- Is safe and non-irritating
- Has a heavenly Honey Vanilla Scent

daily application

Morning and Evening

ingredients

Purified Water (Aqua), Exfo-Amber, Cetearyl Alcohol, Simmondsia Chinensis (Jojoba) Seed Oil, Coco-Glucoside, Mel (Honey), Sodium Cocoyl Apple Amino Acids, Xylitylglucoside, Anhydroxylitol, Xylitol, Magnesium Gluconate, Vanilla Planifolia Fruit Extract, Phenoxyethanol, Ethylhexylglycerin

directions

Take a small amount into palm of hand. Add a few drops of water. Apply to face or body in a circular motion. Rinse off with plenty of water. Follow with moisturizer for best results.

how it works

Savarnas Mantra Natural Honey Exfoliant uses Amber as the mechanical exfoliating ingredient. Amber is fossilized tree resin, which has unique physical and chemical characteristics.

This makes it excellent for a gentle, yet effective exfoliation. It's density and harder structure provide balanced abrasive qualities, with a smooth and rounder shape so not to scratch and damage good skin. Amber also provides a subtle and attractive pine resin scent, which elegantly complements the honey and vanilla ingredients.

Aside from its attractive fragrance, Honey has the ability to absorb moisture from the air. We've also used an ingredient called AquaxyTM which delivers moisture loving Glycosaminoglycans such as Hyaluronic acid and Chondroitin Sulfate to the skin. This helps restore and balance moisture content and retention.

To supplement the skin with beneficial minerals, we've added Magnesium Glucomate. This ingredient helps stimulate the synthesis of collagen boosting amino acids. It also helps boost the skin's immune system and is anti-inflammatory.

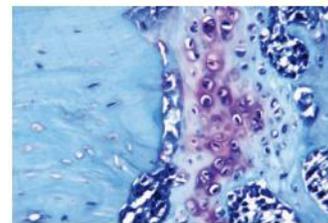

As a general purpose scrub, this product is excellent for full body washes, face cleansing or everyday use. Its gentle exfoliation and sweet and relaxing fragrance will leave you feeling fresh, clean and revitalized.

Amber particles exfoliate the skin and provide a pleasurable pine resin scent.

Honey and Vanilla provide a sensational fragrance with moisturizing benefit.
