NATURAL BIOMARINE MOISTURIZER

Moisturized skin looks younger and more radiant, but needs to be maintained with a protective barrier and therapeutic vitamins and minerals.

Savarnas Mantra natural biomarine

moisturizer can help transform desert dry skin into a Sea of health and radiance thanks to its Seaweed Extract ingredients. It uses Brown Sea Algae to enhance the skins ability to trap and balance moisture content while building an age-defying skin barrier.

By providing, protection, moisturization and the necessary skin enhancing nutrients, our natural biomarine moisturizer helps protect against free radicals and the environment.

Daily Application

Apply morning and night consistently

Ingredients

Purified Water (Aqua), Squalane, Hyaluronic Acid, Fucus Serratus Extract, Ascophyllum Nodosum Extract, Polyacrylate 13, Polyisobutene, Polysorbate 20, Xylitylglucoside, Anhydroxylitol, Xylitol, Phenoxyethanol, Ethylhexylglycerin.

benefits

- Delivers excellent moisturization
- Provides skin nourishing Vitamins and Minerals
- Strengthens the skin's protective barrier
- Uses safe skin compatible Ingredients

directions

Apply evenly to the face and neck

how it works

Savarnas Mantra Natural Biomarine Moisturizer uses 2 key ingredients to increase the skin's protective barrier, while nourishing the skin and locking in moisture.

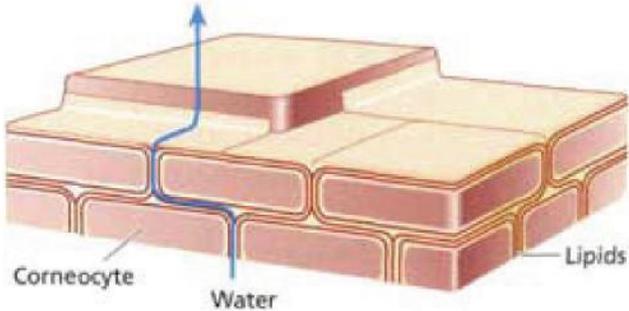

The first ingredient called Homeo Shield™, is derived from Brown Algae, and promotes Stratum Corneum (outer skin layer) growth and development. This improves the skin's natural barrier function. This increases the cellular density in the outer layer, which helps the skin to better brave conditions, such as harmful UV rays, winds, or extreme temperatures, while locking moisture safe inside.

Another Brown Algae derivative; Homeo Age™ contains all the essential vitamins and minerals necessary to stimulate cellular growth on a molecular level; nourishing and repairing the skin while you go about your daily business. This hard working ingredient motivates the cellular reinforcement needed to restore a youthful appearance and fight aging.

By using Brown Algae extracts which are highly compatible with human plasma and combining them with Hyaluronic Acid and Squalane (other well know and effective moisturizers), we've established a super mix of hydration therapy for the driest and most sensitive of skins.

Savarnas Mantra Natural Biomarine Moisturizer delivers essential vitamins and minerals to the skin

Brown Algae Extract helps promote Stratum Corneum growth and development, improving the skins natural barrier function, and helping to lock water within.

Brown Algae Extract is highly compatible with human plasma, making it a suitable moisturizing ingredient for sensitive skin types
