

Natural Age Defying CoQ10 Toner

Compensate for the loss of your natural CoQ10 and maintain a healthy pH balance with this energizing skin toner.

Delivered deep into the skin via innovative nanoparticles, in a nourishing mix of botanical extracts, this skin exciting formula provides moisturizing, skin tightening and radiant complexion benefits.

Savarnas Mantra Natural Age Defying CoQ10 Toner is a skin toning dynamo, delivering cell invigorating CoQ10 coenzymes deep into the cells with powerful antioxidant and skin protecting effect which helps to provide a natural and tranquil pH balance for the skin.

benefits

- Improves concentration of CoQ10 levels in skin cells
- Helps increase the energy production in cells
- Absorbs damage otherwise imparted by oxidizing agents and free radicals
- Rejuvenates and moisturizes the skin
- Nourishes and maintains a healthy pH balance

daily application

Morning & Evening

ingredients

Purified Water (Aqua), Aloe Barbadensis Leaf Extract, Ubiquinone (Coenzyme Q-10), Hyaluronic Acid, Anthemus Nobilis (Chamomile) Extract, Salvia Officinalis (Sage) Extract, Carica Papaya Fruit (Papaya) Extract, Cucumis Sativus (Cucumber) Extract, Citrus Aurantium (Orange) Flower Extract, Phenoxyethanol, Ethylhexylglycerin.

directions

After cleansing, saturate a cotton ball or cotton pad with CoQ10 Toner. Apply to the face in a circular motion. Avoid the eye area. For best results, follow with application of a moisturizer.

how it works

Coenzyme Q10, also known as Ubiquinone, is a molecular compound that is present in many cells in the body. It is a component of the electron transport chain which participates in cellular breathing, and energy generation.

Thanks to the CoQ10 molecule's energy carrier function, it has a powerful and excellent antioxidizing effect. The CoQ10 molecule is continually going through an oxidation-reduction cycle.

In its reduced state, it gives up electrons and becomes oxidized. This helps impart energy, while protecting cellular lipids and proteins from oxygenation by absorbing oxidation caused by free radicals.

As you grow older, your natural concentration of CoQ10 in skin cells is reduced. As a result cells lose their energy production (efficiency) and protecting capacity (antioxidant abilities), which are both important factors in young healthy looking skin.

Savarnas Mantra Age Defying CoQ10 Toner delivers a topical, supplemental boost of CoQ10 in an effort to significantly reduce the formation of oxidative stress in older skin and restore a natural and healthy pH balance.

We use scientifically advantageous, non-toxic, biodegradable nanoemulsions containing the CoQ10 to assist in the penetrating the epidermal layer of the skin and release the encapsulated CoQ10. These emulsions are mixed with a blend of skin nourishing and moisturizing Aloe Leaf, Chamomile, Sage, Papaya, Cucumber and Orange extracts.

CoQ10 is a beneficial molecule that participates in cellular breathing for energy generation, providing anti-oxidizing properties

The use of non toxic, biodegradable nanoemulsions help deliver the CoQ10 deep into the skin

Aloe Leaf, Chamomile, Sage, Papaya, Cucumber and Orange Extracts help moisturize and nourish the skin
